

Electrical Circuit Breaker Lockout Kit

STORE SKU

LK007

Personal electrical lockout kit supplied in a water resistant waist bag. Holds clamp-on breaker lockouts, padlocks, a hasp and tags for isolating circuit breakers at the panel.

TECHNICAL DATA

■ **Material:** water resistant polyester

■ **Colour:** red

KIT CONTENTS

- 1 × 38 mm red steel padlock
- 1 × 175 mm steel wire padlock
- 1 × 25 mm safety hasp - steel hasp / nylon body
- 10 × style 2 - LOTO signage tag
- 2 × standard clamp circuit breaker lockout 120-240 V
- 1 × wide grip tight circuit breaker lockout 480-600 V

APPLICATION

Assembled for electrical isolation work carried on the person. The clamp-on lockouts cover circuit breakers from 120-240 V through to 480-600 V, including wide and tall toggles. The hasp provides a single isolation point for more than one padlock, and the steel wire padlock reaches isolation points a rigid shackle cannot.
