

Adjustable Steel Cable - Lockout Tagout - Style 10

STORE SKU
ASC010

Adjustable cable lockout with a 2.8 m plastic coated steel cable and a nylon body, for isolation points a rigid device cannot fit.

TECHNICAL DATA

- **Material:** nylon body / insulated plastic coated steel cable
- **Cable length:** 2.8 m
- **Cable diameter:** 4 mm
- **Lockout points:** 4
- **Padlock hole diameter:** 8 mm
- **Colour:** red

APPLICATION

The cable threads through valve handwheels, levers and gate handles, and is pulled tight to the length needed. At 2.8 m it reaches further than the shorter cables in this range. Takes 4 padlocks through 8 mm holes, accepting the 6 mm shackles of the padlocks in this range. The cable is steel under a plastic coating.
