APPLICATION

Personal lockout padlock, supplied one key per lock. The 76 mm shackle reaches through thicker hasps and around larger fittings than the 38 mm version. The 6 mm shackle fits the 7.5 mm padlock holes on the clamp-on lockouts in this range and the 10.5 mm holes on the steel safety hasp. The shackle is metal; the LOTO Padlock - Nylon - 76mm is the equivalent where an insulated shackle is specified.
