

Steel Tamper Proof Security Cables - 25 Pack, Steel Cable

STORE SKU
ASC008

Tamper proof security cable with a bare steel cable, for securing valves and equipment against unauthorised operation. Supplied in packs of 25.

TECHNICAL DATA

- **Material:** ABS plastic & steel cable
- **Cable diameter:** 1.8 mm
- **Cable length:** 256 mm
- **Colour:** yellow

APPLICATION

The 256 mm cable threads through a valve handwheel or lever and locks into the ABS body. Single use: the cable cannot be reopened once locked, and is released by cutting. The cable is bare steel; the insulated steel cable version of this product is the equivalent where a coated cable is specified.
