

Steel Tamper Proof Security Cables - 25 Pack, Insulated Steel Cable

STORE SKU
ASC009

Tamper proof security cable with a PVC coated steel cable, for securing valves and equipment against unauthorised operation. Supplied in packs of 25.

TECHNICAL DATA

- **Material:** ABS plastic & PVC coated steel cable
- **Cable diameter:** 1.8 mm
- **Cable length:** 256 mm
- **Colour:** yellow

APPLICATION

The 256 mm cable threads through a valve handwheel or lever and locks into the ABS body. Single use: the cable cannot be reopened once locked, and is released by cutting. The PVC coating protects the cable and the surface it is fitted around.
