

Heavy Duty Steel Padlock, 38mm

STORE SKU
HDP002

Laminated steel padlock for lockout points in harsh physical conditions, where a heavier lock body is required than the standard lockout padlocks in this range.

TECHNICAL DATA

- **Material:** reinforced laminated steel
- **Shackle diameter:** 6 mm
- **Body dimensions (L x W):** 40 mm x 35 mm
- **Keying:** keyed different, keyed alike, custom numbering available

APPLICATION

The 38 mm shackle gives more clearance than the 23 mm version for thicker hasps and larger fittings. The 6 mm shackle fits the 10.5 mm padlock holes on the steel safety hasp and the 7.5 mm holes on the clamp-on lockouts in this range. Reinforced laminated steel body and shackle; the LOTO Padlock - Nylon - 38mm is the equivalent where an insulated padlock is specified.
